AUDIT & ACCOUNTING SERVICES

for Microsoft Dynamics 365

- Unit billing
- Renewal of fiscal year from N to N+1
- Automatic Billing Plan generation
- Mission Creation Wizard
- A set of complementary features to enhance the standard D365 Finance solution

AUDIT & ACCOUNTING SERVICES

Unit Billing

Unit Billing and missions' management in Microsoft Dynamics 365

Additional features to set up and manage data to enable unit billing.

The employee enters hours as well as units in timesheets in order to enable unit billing. This information is then used to calculate costs and applicable sales prices, and to generate detailed invoice.

Benefits

Complementary function to mission management, enabling to manage a common billing method in the audit & accounting industry.

- ♦ The employee can add the units produced when entering hours in his timesheet.
- ♦ Unit billing flexible settings
- ♦ Invoice proposal including various invoicing types (milestone, unit billing, direct billing, etc.) in a single invoice

Features

Price list	Define rate card by unit for unit billing categories. Possibility to manage discounts based on unit volume.
Service category management	Define specific unit billing categories at mission level. Enables unit entry billing information in timesheets.
Timesheet entry	If the mission is billed on a unit billing basis, the employee can enter the units performed by date for a mission directly when entering his timesheet.
Billing	Invoicing of units entered in timesheets. Possibility of modifying/adjusting units and sales prices.

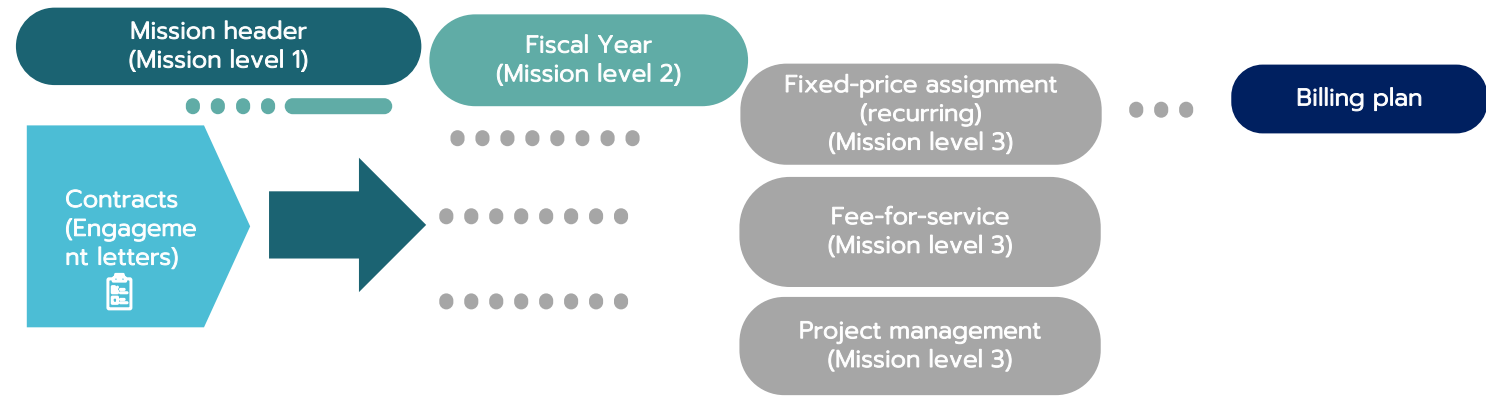

AUDIT & ACCOUNTING SERVICES

Renewal of fiscal year

Mission accounting and management in Microsoft Dynamics 365.

Feature enabling automatic rollover of open and unbilled fiscal year (missions) to a new fiscal year (customer fiscal year).

Definition of a hierarchy adapted to the renewal of fiscal year.

Benefits

Considerable time savings when renewing fiscal year.

- Automated renewal of fiscal year
- Possibility of automatic missions' revaluation on renewal

Features

Mission renewal	Automatic renewal / duplication from N to N+1. Billing plan renewal
Missions' Mass renewal	Automatic renewal / duplication of fiscal year N to N+1 in volume. Billing plan renewal.
Valuation	Possibility of revaluing missions on the basis of the new rate card at renewal time.

AUDIT & ACCOUNTING SERVICES

Automatic Billing Plan generation

Automatic creation of a billing plan based on contract value, billing frequency and billing interval.

Benefits

An innovative solution that guarantees data reliability

- 📍 Automates billing plan generation to save considerable time

Features

Automatic generation	Automatic creation of a billing plan based on contract value, billing frequency and billing interval.
Milestones description	Automatic generation of descriptions for each milestone (down payments, fees, etc.)
Flexible milestones	Milestones can be modified as needed.
Recalculation of contract value	Automatic recalculation of contract value in line with defined milestones.
Integration of invoicing plan	Data entity used to import the billing plan and its contract value via Data Management. (DEMF)

AUDIT & ACCOUNTING SERVICES

Mission Creation Wizard

The mission creation wizard has been developed to facilitate the creation and management of mission hierarchies between *parent* and *child missions*.

This feature enables users not only to get an overview, but also to manage relationships between missions at several levels.

Therefore, when an update or deletion is made, all lower levels are automatically updated.

Benefits

Automated creation of the mission hierarchy, a real time-saver.

- Facilitates management of the hierarchy between the different mission levels
- Quickly manages missions and related sub-missions
- Ensures sub-missions' compliance

Features

Mission Creation Wizard	The wizard lets you create a mission structure and manage hierarchical levels. A dedicated mission creation form enables users to make modifications before creating their mission hierarchy.
Mission templates	Use of the mission creation wizard, based on mission templates.
Mission name	Automated mission names according to your needs.

AUDIT & ACCOUNTING SERVICES

Complementary features

A set of complementary features to enhance the standard Microsoft Dynamics 365 solution, based on WorkinWith's experience in implementing numerous projects.

Features

Timesheets mass approval	New screen for viewing and controlling timesheet transactions of employees working on assignments, and for managing mass approvals.
Work breakdown structures (WBS) mass publication	Enables automatic mass publication of work breakdown structures.
Mass mission closing	Adjustment of unbilled mission transactions with optional closing. Each adjustment request requires a reason code and may be subject to an approval process.
Missions mass transfer from one legal entity to another	This feature enables missions to be transferred from one legal entity to another, while retaining all master data except for historical transactions.
Labels translation	Customizable labels using terms related to your business sector.
Analysis	Provision of the data model for BI

Benefits

An innovative solution tailored to the specific needs of your industry
