

WorkinWith  
Stronger Together

PRESS RELEASE – Lausanne – March 11, 2025.

**WorkinWith becomes a Merit Solutions integrator.**

**Alongside Merit's Life Science industry experts, WorkinWith now offers its customers a wider range of functions and services to enable digital operations for regulated industry companies**

**With its business expertise in HR, Finance, Supply Chain & Operations and in the face of growing customer demand for the Life Science and Food market, WorkinWith announces its appointment as a Merit integrator thanks to its 6 agencies in Europe.**

Merit Solutions enhances key Microsoft Dynamics 365 functionalities to ensure continued compliance, scalability and growth for Life Science, biopharma, medical device and other regulated industries.

*"In collaboration with Merit Solutions, WorkinWith now offers comprehensive support to companies operating in the pharmaceutical and life sciences sectors, as well as all other industries such as agri-food. These sectors face ongoing challenges, from streamlining their supply chains to accelerating time-to-market, while adhering to increasingly complex compliance regulations.*

*Merit Solutions offers the competitive edge needed to meet these demands. We are delighted to be working with a supportive management team that supports our experts in all our projects."* Stephane Pasche – CEO of WorkinWith

Companies in these sectors will now be able to benefit from secure, cloud-based solutions that improve procurement, production, inventory/warehousing and quality control, enabling them to bring more innovative, more efficient and safer products to market, all more quickly.

With the WorkinWith and Merit teams working together on projects, market decision-makers can turn to a collective of experts to ensure project success and create solutions tailored to their needs.

*"WorkinWith has a reputation for reliability and high trust, and this is exhibited through the quality of their customer outcomes.*

*With their expertise in biopharma and food industries, we are excited to have them as part of our global network of partners."* Bill Burke – CEO of Merit Solutions

About Merit Solutions

Merit for Life Science advances Microsoft D365 cloud-first ERP to help biotech, pharma, and medical device organizations (product owners, CMOs, and CDMOs) better manage procurement, production, inventory and warehousing, and quality controls while streamlining the complex processes that come with a highly regulated manufacturing environment. It also provides Azure-based GxP Documents to help streamline, automate, and securely manage and control critical documents as part of the digital life science solution.
